STOCK NO. 912C
CUT ALONG THE DOTTED LINE TO REMOVE THE CONTENTS ⑧

1. Multiple Tear-off Receipt: for the track and trace record of the handling process.

2. **Level 4 Tamper Evident Tape Closure:** Maximum Security, state of the art technologies Tape.

3. **Easy to Use Instructions:** Help the user to prepare and seal the security bag properly.

4. **Special heat seal:** Wide in-set seals are used for the highest level of tamper evidence. The width of the seal yields a high strength film bond and the in-set position gives a very positive indication of possible tampering.

5. K0248864 **Multiple Barcode& Serial Numbers for Track and Trace:** located on both the tear-off receipt and the body of the security bag, these numbers provide a tracking method from the sender to the final receiver-even with multiple transfers through an armored car system.

6. **Write-on Information Panel:** Prompts the user with vital information categories.

7. **RITY SYSTEM** WWW.ADSUREPACKAGING.COM **Our website:** For more information, please visit our website.

8. **Dotted line at the bottom:** cut along it when you want to remove the contents.

Level 4 Tamper Evident Tape

1. Normal Evident: Hidden message "VOID" word appears when tampered in the normal temperature.

2. Cold Evident: Hidden message "VOID" word appears when tampered by using Freon or expose to the extremely cold temperature.

3. Water & Solvent Evident: "Tamper –Evident" word is disappeared when tampered by using water or solvent.

4. Heat Evident: Red word "VOID" will show up on the tape when tampered by using extreme heat to get into the bag.

Security Paste

1. **Level 2 Tamper Evident Tape Closure:** Middle Security, state of the art technologies Tape.

The Difference of Pouch Seal, Skirt Seal and Side Seal

Pouch Seal: The pouch seal is the most securityseal, because at the side of the bags there is a 10MM width print content was hot sealed makes it not easy to be cut, even if be cut it is very difficult to sealed well.

Skirt Seal: The side of the bag is hot sealed in two films and have a clear indentation with a thin line, and the seal can print some content also makes it difficultto be cut, so it also has a critical role in anti-theft.

Side Seal: The side seal is the most ordinary one, it consisted by two films and haveno pouch, it is easy to be cut and re-sealed well.

Level 2 Tamper Evident Tape

1. Normal Evident: Hidden message "VOID" appears when tampered in the normal temperature.

2. Cold Evident: Hidden message "VOID" word appears when tampered by using Freon or expose to the extremely cold temperature.

● Ideal for all Airlines and Duty Free Stores Packaging.
● With registered ICAO Logo printed on the bag.
● With clear separate compartment inside for sales receipts.
● 100% Recyclable and Environment-friendly.

ICAO
### Listed Manufacturer

Cooperative Customer
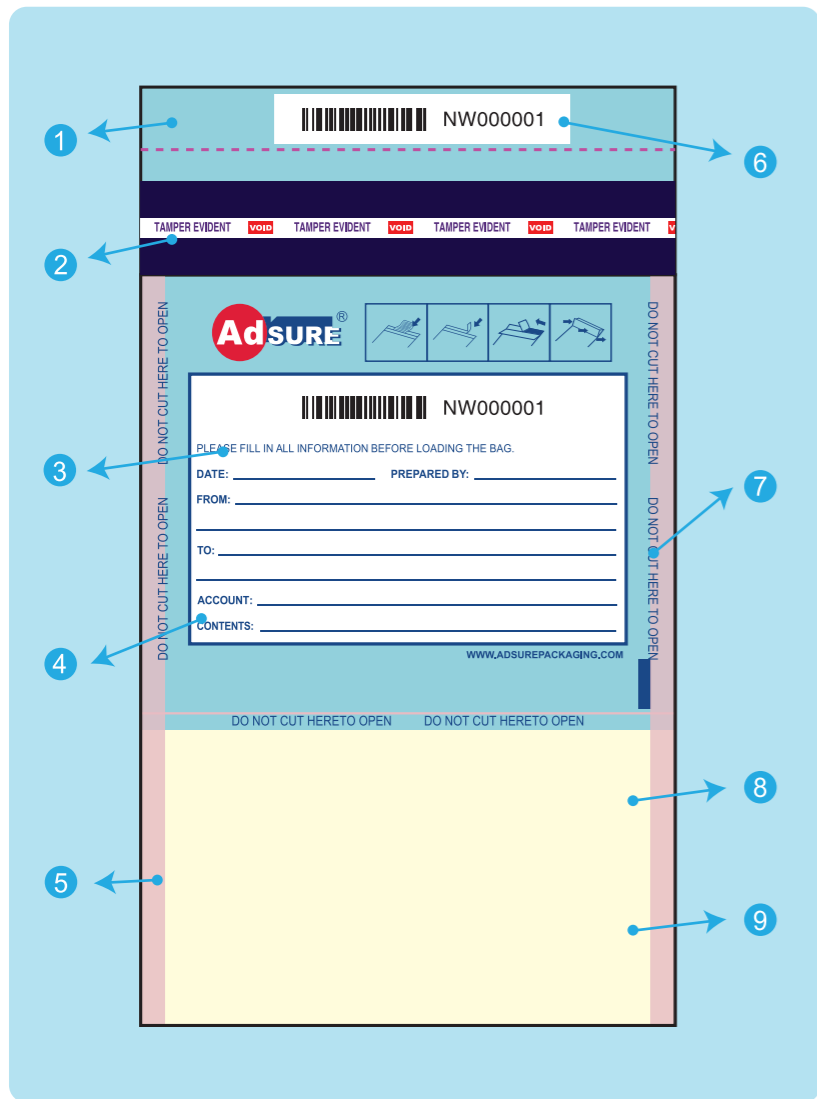

Applications

◆ For transport of valuables, money and documents, especially for systems with staining technique.

◆ Pack for Banknote Transport within BNS Case.

Functions

◆ Crime deterrent.

◆ Compatible with a large majority of banknotes.

◆ Permeable polyethylene fabric film.

◆ Identity them with tampered.

◆ Preventing theft by securing cash in circulation.

◆ Combination with a non-incendiary CIT system.

◆ Environment friendly.

Features

1. Multiple tear-off receipt.

2. Level 4 Tamper Evident Tape Closure.

3. Easy to Use Instructions.

4. Write-on Information Panel.

5. Special heat seal-pouch seal.

6. Multiple Barcode & Serial Numbers for Track and Trace.

7. Extremely sturdy double-shrink seal, 100% Recyclable Materials .

8. Print along the both sides of the edge.

9. bag ensures the contents are dyed quickly and reliably on tampering.

* Up to 8-10 colour flexo-printing or for customised designs.

* Kept in a dark and dry place at room temperature (between + 10°C and + 30°C), the pouches can last for 2 years.
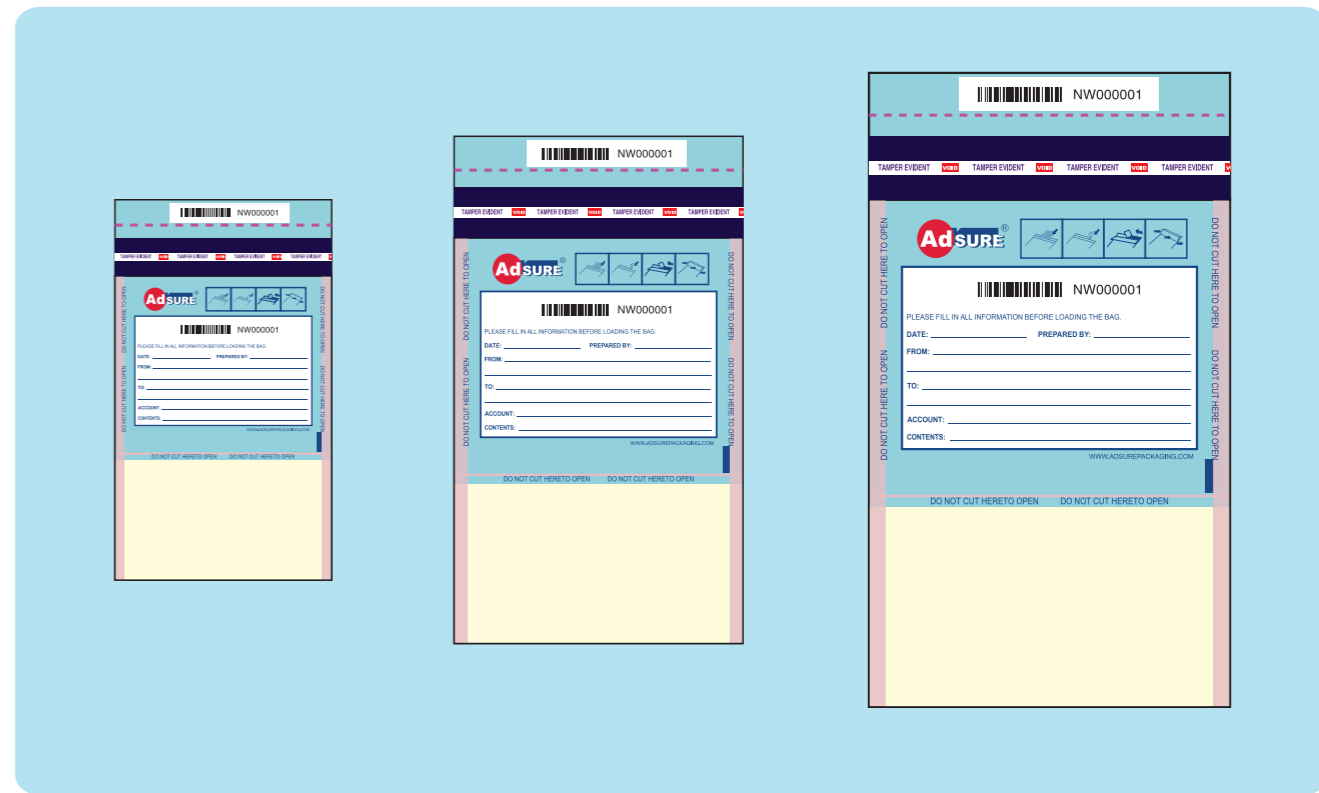

Customization and Options

◆ All Custom Printing

◆ All Custom Sizes

◆ Barcoding 25 / 39 / 128 / EAN

◆ Numeration 6 -16 digits

◆ RFID Labelling

◆ 25g/m² or 50g/m² permeable

◆ 100% recycle Material

◆ Packaging Cartons and Pallets

Specifications

◆ Material = Clear 3 Layers Clear Polyethylene film.

◆ Thickness = 70 Micron.

◆ Stardard as below.

| Item Number	Thickness (Micron)	Size (WXL)	Security Level	Film Color
TEN - 69C - 4	70	6 x 9"	Level 4	Clear
TEN - 912C - 4	70	9 x 12"	Level 4	Clear
TEN - 1216C - 4	70	12 x 16"	Level 4	Clear
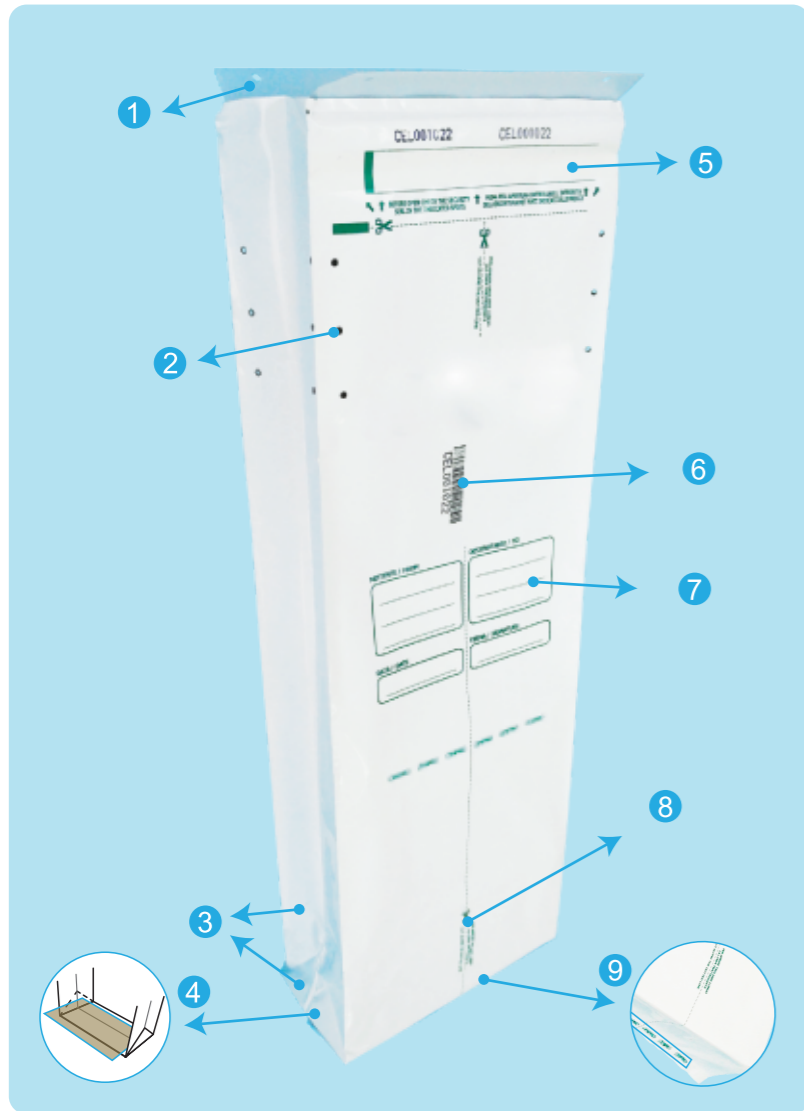

Applications

◆ Cash Deposit Collection with Auto Sealing.

◆ Auto Sealing for ATM, Cash Recycle Machine, Deposit Machine, Slot Machines, Vending Machines, etc.

Functions

◆ When machine is being opened, the heat sealer action automatically exactly on the patch area.

◆ Securing the cash from any manual handling.

Features

1. Rigid HDPE molded Handles for fixing firmly and exactly with the sealer inside the machine.

2. 6 Ventilation Holes on 4 sides.

3. Maximized Bank Notes Storage Volume with Gusseted structure.

4. Card Broad in Bottom Gusset for Maximizing Rigidity.

5. Heat Resistant Patches on both sides for wide range sealing temperatures.

6. Multiple Barcodes and Sequential Numbers on individual bag.

7. White write-on panel for manual recording.

8. Printed Instructions for installing and cutting.

9. Micro Print on Bottom Seal to Prevent Tampering.

* 3 Layers White & Black Co-extruded film with 100% Opacity.

* All Recyclable Materials and ROSH Complied.

IfLabel's platform is a complete hardware-software system combining Bluetooth4.0 wireless communication and ESL tags, Access Point, Handheld scanner and so on. The Access Point supports both RJ45 Communication and Wi-Fi. Also it can be operated on Cloud Server. What' more, the Access Point can control all the labels within 30 meters.

The system can be operated on Cloud and LAN also can be used in multiple shop and store for commodity management. IfLabel's platform is able to be open to third-party companies to enable interconnection with their own software (such as ERP) or system through API interface, to better meet local customer's requirements.
